This course is designed to certify police officers in the use of radar speed measurement equipment. This course meets the criteria established by the National Highway Traffic Safety Administration. Topics to be discussed will include the benefits of effective speed control, basic principles of radar speed measurement, laws, court rulings and regulations, procedures affecting radar speed measurement, vehicle tracking techniques, and courtroom testimony.

Upon completion of this course, the student should be able to:

1. Identify ways to improve the effectiveness of speed enforcement through the proper and efficient use of radar speed measurement instruments.
2. Describe the association between speed offenses and motor vehicle crashes and injuries.
3. Define the term Radar and describe the origin and history of radar equipment.
4. Describe the basic operation of a stationary radar instrument.
5. Describe the basic operation of a moving radar instrument.
This course is designed to meet requirements as mandated by the Maryland Police and Correctional Training Commissions and to meet the annual in-service requirements.
